 Detailed Heart Rate How the study will use this data: To further understand how signals from the heart rate sensor relate to heart health. What is collected: • Optical heart sensor data • Heart rate along with reading accuracy • High-fidelity accelerometer data What is not collected: • GPS data or results	About Sensor & Usage Data This is sensitive information Sensor & Usage Data is a portion of the data available on your device. You can review these requests Review that request Sensor & Usage Data requires optical sensor and location. You're in control You can turn off collection of this data at any time. You can review data before it's shared Reviewed data is held on your device for 90 days. You can delete this data at any point before its release with a button you'll see when prompted. Next	 Sensor & Usage Data Request The "Apple Heart & Movement Study" would use the Research app to collect and share Sensor & Usage Data from your devices as part of a study. Study Research Purpose This data helps the study explore how your movement, daily life, and heart signals relate to your risk of certain health conditions. View Study Privacy Notice Review Request	 Elevation How the study will use this data: To learn about the intensity of your movement and its relationship to your health. What is collected: • Your barometric pressure and change in elevation over a period of time What is not collected: • Specific location information such as places visited or latitude and longitude.	 Motion How the study will use this data: To learn how the way you move relates to your health. What is collected: • High-fidelity gyroscope and accelerometer data from your iPhone and Apple Watch What is not collected: • GPS or specific location information. Example data sample
